# Build the ultimate driver relationship

Meet GR Corolla. The thrilling motorsport-bred representation of one of the world's favourite cars. Developed under race conditions with input from professional drivers, including Master Driver, Morizo, GR Corolla takes everyday performance into a new realm of capabilities.

Featuring advanced aerodynamic elements, outstanding power output, enhanced handling and braking, GR Corolla was forged through

a no-compromise evaluation of extreme motorsport and road conditions including gravel and snow.

Using experience from events such as the Super Taikyu Series in Japan, GR Corolla has been created purely to place the driver first.

Start your high-performance relationship with GR Corolla today.

**“Bring back a Corolla that  
captivates our customers”**

**Akio Toyoda**

President, Toyota Motor Corporation

# The shape of speed

Every exterior element of GR Corolla has been shaped to perform, enhance the aerodynamics and improve on-road stability to produce a truly exhilarating driving experience.

Extended front and rear fender overhangs have been incorporated to improve aero management while the engine hood line

has been raised to accommodate functional heat discharging outlets. Slimmed down GR dedicated front and rear bumpers provide additional weight reduction and feature air ducts to improve airflow where it counts.

The aerodynamic performance of the design also produces greater downforce to support

extra stability and improved handling when cornering at higher speeds.

Aero stabilising fins and aero spats further reduce drag and improve airflow under the car to improve acceleration and help the GR Corolla feel fully connected to the road.

# Pushing the limits

• • • • •

The GR Corolla was born from the already well acclaimed Corolla platform. First, the on-road stance was widened by 60mm to help seamlessly integrate the GR-FOUR AWD system into the body.

The chassis was then extensively race track tested and tuned by professional drivers in all conditions. The drivers also found the lower centre of gravity delivers genuine high-speed cornering performance and a greatly enhanced driving experience, especially when pushing GR Corolla to the limits.

# The strength you need

The GR Corolla is built upon a frame that's hand finished at the TOYOTA GAZOO Racing factory in Motomachi, Japan. Hundreds of extra spot welds have been added to increase body rigidity and enhance the overall on-road stability and control characteristics.

Further body stiffness is gained with three under floor metal braces and one centre floor metal brace that help deliver sharper handling capability. The high-rigidity front suspension members are also finely tuned to help produce a genuine race car driving experience.

## Leading the way

The front bumper integrates the GR functional matrix grille which is an exclusive GR design as featured across GR Yaris and GR86. Fog lamps are seamlessly positioned into the front bumper and placed purposely low alongside the bezel edged brake and engine cooling air intakes.

Large under spoiler and corner lip spoilers help control airflow under the car and generate additional downforce when cornering hard. Bi-Beam headlamps keep the way ahead bright at night and integrated Daytime Running Lamps (DRLs) help keep GR Corolla noticed 24/7 on the road.

# Fast from front to back

The rear of the GR Corolla has been shortened compared to the Corolla to further enhance aerodynamic performance and on-road stability. The rear diffuser and air outlets help reduce turbulence and discharge air from beneath the car and rear bumper. The unique chrome finished triple exhaust also adds greater emphasis to the powerful rear design.

The rally-like 18" black alloy wheels feature a multi axis spoke structure to provide greater structural rigidity. They're matched with performance tyres to handle the power of GR Corolla and the demands of challenging driving conditions.

The image shows the interior of a car, specifically the driver's side. The dashboard features a large, vertical touchscreen display showing a navigation map. The steering wheel is black with a red center. The gear shift is a manual transmission with a black knob. The interior is illuminated with a vibrant red ambient light that highlights the door panels, the dashboard, and the seats. The overall aesthetic is sleek and performance-oriented.

## Take centre stage

.....

Inside GR Corolla has been created as the perfect space to accentuate the joy of performance driving.

The subtle design lines and black base colouring help reduce driver distraction and feature stylish GR dedicated and dark silver highlights.

# Technology at your fingertips

The 12.3" GR dedicated digital dash is designed to support sports driving with a selection of graphic layouts inspired by genuine circuit and race car read-outs. Apart from detailed engine and performance data, the display also includes a G-Force monitor and engine boost meter.

The digital Multi Information Display (MID) can be customised to support drivers requiring multiple information sources navigation with 'map' only display, audio and vital trip information. It can also be switched to support circuit, performance or general road driving conditions.

B 12.3" GR digital dash

# Control centre

Inside the race inspired GR Corolla is where the driver can prepare for action and become as one with the car.

The race track developed leather accented GR sports seats in the GTS are wrapped in Brin Naub®<sup>1</sup> suede with silver trim accents. Featuring GR insignia, they're specially shaped to provide outstanding support when driving hard.

The premium GR 3-spoke steering wheel provides enhanced grip and feel to support sports driving. It places essential controls within reach for easier operability without the hands needing to leave the wheel.

The centre console features a GR marked gear shifter with a dark silver decorative ring and is placed to work harmoniously with the steering wheel when driving hard. The parking brake is also placed to provide better grip.

# Take total control

When driving for maximum performance the race styled lightweight aluminium pedals provide greater grip and confidence under foot for stress free gear shifting.

The six-speed gear box features optimal gear ratios for enhanced power and driving performance, with the short stroke shift lever enabling quick gear changes when driving hard.

# Superb grip and response

The race tuned GR-FOUR AWD system in GR Corolla provides incredible response and controlled acceleration in all driving conditions from suburban streets to race track runs.

It precisely manages the torque distribution for enhanced control and balance, especially during sports driving. It sends the power to the wheels that need it most for maximum response and automatically responds to changing road surface conditions.

With GR-FOUR AWD, the driver can also manually adjust the front/rear torque distribution to match the driving situation. Choose 60:40 balance for everyday driving, 30:70 to tackle winding roads with greater linear response and 50:50 balance for maximum traction when taking on circuit conditions.

# Maximum connection

.....

The GR Corolla features a highly rigid lightweight MacPherson strut suspension system on the front and a wide trailing double wishbone suspension on the rear. This set-up helps maintain maximum contact with the road in all conditions with outstanding cornering, braking and acceleration performance.

The diameter of the front stabiliser bar has also been increased to optimise roll rigidity and the rear stabiliser tuned to elevate the steering response.

On the GTS, 355mm ventilated front discs are matched with four-pot red GR calipers and the 298mm ventilated rear discs with two-pot red GR calipers. Together they provide outstanding braking force and assured control to match genuine race driving conditions.

# The power to excite

The 1.6L 3-cylinder turbocharged engine has been developed using the latest motorsport technology and race data to provide maximum performance and driving enjoyment.

It produces 221kW<sup>2</sup> of power with 370Nm<sup>2</sup> of torque to deliver outstanding response right throughout the rev range.

Weight has been reduced to maximise performance by using a lightweight camshaft, crankshaft and chain cover as well as a lightweight aluminium oil cooler. The lightweight pistons are shaped for high-speed combustion and feature anti-friction rings for reduced friction and combine with an advanced fuel injector spray pattern to produce enhanced fuel efficiency.

The GR badged engine cover optimises airflow across the engine towards the exhaust to enhance cooling performance.

## A sweet sound

.....

More than providing the rear end of GR Corolla with a sense of presence, the triple exhaust configuration supports a higher output and generates a satisfyingly powerful exhaust sound.

An exhaust valve and actuator opens to reduce back pressure when the engine is at high output and generates greater sound at lower engine speeds.

# Toyota Connected Services<sup>3</sup>

## 12 months complimentary access

Driving should be easy, enjoyable and safe. That's why inside every connected Toyota you'll find a suite of advanced features focused on safety and convenience for a better driving experience, all seamlessly integrated into the myToyota Connect app.<sup>3</sup>

Learn more, and discover the Toyota Connected Services on your vehicle by visiting [toyota.com.au/connected](http://toyota.com.au/connected)

For Toyota Connected Service Packages see [www.toyota.com.au/connected/plans-packages](http://www.toyota.com.au/connected/plans-packages)

Test drive the app now, no Toyota required:

## Safety and Security

People and property are precious. Toyota Connected Services' advanced features are designed to help protect them all. In emergencies, you can utilise push-button SOS Emergency Call<sup>4,5</sup> (SOS). It contacts Toyota Emergency Assistance directly, guiding services to your location. In the event of a collision, Automatic Collision Notification<sup>4,6</sup> (ACN) is designed to activate, calling you directly in-car, and if you are unresponsive, dispatching emergency services to that location. Should your car be reported stolen, Stolen Vehicle Tracking<sup>4,7</sup> (SVT) will utilise vehicle tracking technology via our Stolen Vehicle Assistance Call Centre to help police to potentially recover your vehicle.

## Remote Connect

Control vehicle functionality, even when you're not in the driver's seat. Our Connected features enable you lock and unlock doors and boot, as well as activate remote horn buzzer, hazard and headlights. Perfect for locating your vehicle in a crowd, or just flagging emergencies.

## Driver Insights

The myToyota Connect app gives you a complete view across your entire drive. Review recent trips and, with Drive Pulse Score,<sup>8</sup> understand how braking and cornering can be improved to help maintain your car. The features let you run quick checks on odometer, fuel levels and distance to empty<sup>9</sup> to aid journey planning. You can also spot unlocked doors or windows left open away from your car using the in-app Vehicle Status features, and set up alerts. A Vehicle Locator also helps you find where you last parked, and our Glove Box feature opens access to digital warranty and manuals for you.

## Multimedia Connect

Toyota's interconnected multimedia platform includes Connected Navigation which provides current parking availability, traffic, weather and fuel prices for your journey. Through Connected Voice Assistant, control vehicle features including navigation, audio and climate settings. With Connected Trip Start and Finish features you can plan routes, search a point of interest and send it to your car. When driving and not reaching your endpoint, the app notes the full route when you park, allowing you to continue navigation on foot with your phone or device.

# Unlock it all

When you join the Toyota family, you get so much more than a new car feeling. You get a lifetime of benefits keeping you moving now and well into the future.

Discover your Toyota lifetime of advantages at [toyota.com.au](http://toyota.com.au)

## Toyota Genuine Accessories<sup>14</sup>

Developed alongside the vehicle, this unique advantage allows Toyota to design accessories, so they integrate harmoniously with the vehicle structure and safety systems.

For more information, visit [toyota.com.au/vehiclepayload](http://toyota.com.au/vehiclepayload)

## Toyota Service Advantage<sup>15</sup>

We'll keep the cost of your standard logbook service at a capped price for up to your first 3, 4 or 5 years on the road, depending on the vehicle model.

To find out your low capped service price, visit [toyota.com.au/owners/service/service-pricing-calculator](http://toyota.com.au/owners/service/service-pricing-calculator)

## Toyota Genuine Insurance<sup>16</sup>

With Toyota Genuine Insurance you're not alone. Over 350,000 Toyota owners have chosen Toyota Insurance because they know their Toyota's in safe hands.

For more information, visit [toyota.com.au/insurance](http://toyota.com.au/insurance)

## Toyota Access

Offers you flexible finance options, possible lower monthly repayments<sup>17</sup> and a Guaranteed Future Value.<sup>18</sup> That's the worth Toyota Finance places on your car at the end of your loan term subject to fair wear and tear and agreed kilometres being met. For more information, visit [toyota.com.au/toyota-access](http://toyota.com.au/toyota-access)

## Toyota Certified Pre-Owned Vehicles

Enjoy the reassurance that comes with a Toyota Certified Pre-Owned Vehicle. Including additional 1-year Toyota-backed warranty,<sup>19</sup> full-service history and 90-point inspection by Toyota Technicians. For more information, visit [toyota.com.au/promo/tcpowarranty](http://toyota.com.au/promo/tcpowarranty)

## Toyota Warranty Advantage<sup>20</sup>

Stick to your annual service schedule, and we'll extend your engine and driveline warranty from five to seven years, so you can drive stress-free for longer. For more information, visit [toyota.com.au/owners/warranty](http://toyota.com.au/owners/warranty)

# Disclaimers and Notice

- 1 Product and company names are trademarks of their respective owners.
- 2 Power and torque test standards differ. Ensure comparisons use same test standard.
- 3 Connected Services complimentary period ends 1 year from delivery date. Fees may apply thereafter. See [toyota.com.au/connected/plans-packages](https://toyota.com.au/connected/plans-packages). Not available outside Australia, if services disabled or terminated, or after 2033/Telstra 4G sunset (whichever comes first). Dependent on 3G/4G enabled DCM, GPS signal strength, mobile network coverage and other factors outside Toyota's control which can limit ability or functionality of system. Requires compatible device and app installation, third party info and mobile data. Mobile usage at user's cost. Check [toyota.com.au/connected](https://toyota.com.au/connected) or your Owner's Manual for explanation of limitations. Features subject to change. Please drive safely.
- 4 Driver assist feature only. Not a substitute for safe driving practices. Dependent on operational related components and other factors outside Toyota's control which can limit ability or functionality of system. Check your Owner's Manual for explanation of limitations. Please drive safely.
- 5 SOS – Only operates if vehicle's SOS button is pressed and vehicle ignition is on.
- 6 ACN – Only activates if vehicle's DCM detects airbag deployment or impact sensor notification.
- 7 SVT – Owner/driver required to obtain Police report. Dependent on sufficient battery power. Vehicle location information, if available, only provided to Police. Vehicle recovery not guaranteed.
- 8 Recent trips and drive pulse process may take up to 48 hours to appear in the myToyota Connect app. Drive Pulse measures harsh cornering, fast acceleration and harsh braking, and provides drive pulse score based on these factors. Not to be used as general driver performance measure. For more details, see [toyota.com.au/connected/driving-insights/recent-trips-drive-pulse](https://toyota.com.au/connected/driving-insights/recent-trips-drive-pulse)
- 9 This distance is approximate only and may vary due to driver behaviour, vehicle load, vehicle usage and traffic conditions. Please drive responsibly.
